- Company profile and acknowledgement on our social media platforms
- One event to be organised in cooperation with the society available to students/members

## Additional package options

---

The **Talent Sponsorship Program** aims to support WICS members by providing financial support, opportunities for advanced technology programs, and personalised mentorship. The goal is to empower women in tech, helping them to develop their skills, gain valuable experience, and advance their careers. This would be awarded based on financial need and an application process.

**Non-profit Sponsorship** or collaboration opportunities are also available, tailor made to the needs of the not-for-profit organisation.

**Startup Sponsorship** or collaboration opportunities are also available for young, small-scale companies, tailor made to the needs of the company.

**Event Sponsorship** is available for companies who would prefer to support a WICS-led event such as coffee breaks, the annual 'Anythingathon' or social events.
